PROJECTS

GirlScript SoC Official Website

Production grade responsive & SEO-friendly website for GS Foundation

NextJS - TailwindCSS - ChakraUI - NPM - Framer Motion

- Web-based application developed for the purpose of showcasing the statistics of previous editions, the list of participating projects and organizations, sponsors, prize pool, FAQs, schedule, and workflow of the annual open-source program
- Developed using agile methodologies and CI/CD pipeline, prototyped in Figma, built using a plethora of npm libraries, deployed on Vercel, includes features like a dynamically-updating paginated leaderboard using GitHub Octokit SDK and on-chain certificate verification
- Proved indispensable in showcasing the impact of the program across student communities during sponsor pitches and drove over 10,000 registrations globally.

DeStackOverflow

Web3.0 version of the most popular public forum for developers: Stack Overflow

React - Avalanche - IPFS - Moralis - Solidity

- **Decentralized:** Metadata of posts gets stored on IPFS and then Avalanche Blockchain
- **Karma & Donation** - Users donate crypto to favorite answers which incentivizes the upvoting system and rewards people for their efforts in solving doubts on the platform
- **Privacy and Accessibility** - Completely anonymous as the wallet is an individual's identity. No restrictions are imposed as the website is handled by a smart contract.
- Won the Blockchain track at QuiSWE Datafest 2022 hackathon and received a microgrant of 5000\$ from IPFS/Filecoin Foundations

NFT Haven

DApp serving for NFT-generation, minting & trading

Moralis - Chainlink - Web3.js - React - Node.js

- Web-based multichain Defi Dashboard that allows minting and tracking of assets on multiple chains and creation of personal NFTs on Polygon with a friendly UI.
- Soulbound Token NFT Minter: Any digital asset important to an individual (eg, Certificates, Important Documents) can be attached to a wallet and preserved forever
- Lightning NFT Network: Mint NFTs at blazing speed across multiple ecosystems (Ethereum, Binance Smart Chain, Polygon) and gift them to friends/loved ones.
